Albanian

Profile

Lead Cloud Engineer (Azure) at Netcloud AG with 10+ years of IT experience. End-to-end ownership from *client acquisition* through *cloud architecture* to *managed-service operation*. 3x Microsoft Expert (**AZ-305**, **AZ-400**, **SC-100**) + 2x Associate (**AZ-104**, **AZ-500**). Specialist in Azure Cloud Foundations, MCAF, Terraform and Pulumi. Personally: family life with my wife and daughter, investing, AI, and currently building my own **LLM orchestrator**.

Experience

Lead Cloud Engineer (Azure), Netcloud AG

AUGUST 2024 - PRESENT

- **Acquisition (4 / 6):** won 4 of 6 MCF customers single-handedly: *logistics, chemicals, insurance, construction*. End-to-end BD from the first conversation to managed-service operation.
- **MCF architecture:** an App-Service "engine" in the customer tenant: **Pulumi** for the foundation, **Terraform** workloads via a custom **Azure DevOps framework**. Designed completely from scratch.
- **MCF rollout (4 / 6):** owned the roll-out into 4 customer tenants, then ongoing managed-service operation and further development.
- **AKS & Data Platform:** AKS cluster for an insurance web portal with on-prem connectivity; Azure Data Platform (ADF, Databricks, Event Hub, ADLS Gen2, SQL, Power BI), end-to-end in Terraform.
- **Connectivity: Meraki vMX, Azure Firewall, Route Server,** third-party appliances across hub-and-spoke and hybrid topologies.

Senior Consultant (Lead Architect), MHP, Nuremberg

JULY 2022 - JUNE 2024

- **Power Platform framework:** designed a secure Power Platform framework from scratch and led the platform: 1,000-2,000 users in the first month, *over €1M* saved per year; lead architect across ~7-10 concurrent business-critical apps (delegated CoE, support and consulting; trusted advisor up to C-level).
- **FOSS tool:** a ~€1M open-source license-compliance project (Power Apps, Power Automate, Azure: App Service, Landing Zone, Azure SQL, Functions), the first to ship successfully where earlier attempts had failed; still in use after handover.
- **Platform evolution:** Azure DevOps, GitHub Actions, OpenAI integration; end-to-end ownership of ALM and environment architecture.

Consultant & Junior Consultant, MHP

MAY 2020 - JUNE 2022

- Technical lead on a PKI project; a Teams service solution with Power Automate & Azure Functions.
- Full-stack with React, Node.js, Docker, Kubernetes; SharePoint automation with .NET.

Earlier Roles

2017 - 2020

- **Continental** (Working Student, 2018-2020): database applications + digitalization projects in procurement.
- **AUDI AG** (Technical Intern, 2017-2018): Systems Engineering & a technology matrix for vehicle development.

Education

M.Sc. Computer Science · FAU Erlangen-Nuremberg · 2018-2024

Specialization: AI · Machine Learning · Deep Learning · Software Engineering.

B.Sc. Physics · FAU Erlangen-Nuremberg · 2014-2017

Focus: Statistical Physics & Quantum Mechanics. Bachelor thesis grade **1.0**: quantum states in quasicrystals (Institute for Theoretical Physics 1).
